

Operative G T Purdy

Nov. 8th, 1926

Re: Testimony of ALAN H. BENNETT,  
26 Redmond Street.

Operative received instructions from  
Mr. Watson to interview Mr. Covely of 32 Redmond Street.

Mrs. Covely was interviewed. She stated that her husband died May 2nd, 1924 and she does not know how her husband's name was mentioned in this case since he is dead for two years. She stated that he never mixed with his neighbors and that if Mr. Bennett ever stated to Mr. Covely that he heard a car coming out of the Hall garage with such force that it sent the fenders or mudguards against something, he would have told her, and he never mentioned anything about this to her. He did mention to her that he heard dogs barking and got up and went out and talked to Mr. Phillips who was across the street. This was all she ever heard about this case and could not give further information.

Respectfully submitted:

G T P
